We've taken Australia's most innovative offroad trailer, with the biggest kitchen & largest waist level storage area & removed the tent to provide an additional massive storage draw, measuring 2100mm long x 1200mm wide x 300mm deep.

The huge draw is stored in a water proof compartment, and simply rolls out giving you access to every inch when needed.

The Stockman can also be converted into a standard Adventure Camper with the addition of the tent at any time in the future. This provides exceptional flexibility & protects your investment, as 2nd hand Adventure Campers are hard to come by and are quickly snapped up.
